Align your Process to your Goals

Goals and Policy

Code Review Policy

- One overall strategy?
- How many reviewers?
- Who should be on the review?
- How many approvers?
- How large should a code change be?
- How fast should the first response happen?
- How fast should the turn-around time be?
- What needs to be reviewed?
- Do we have different types of reviews?
- Do we have different roles for reviewers?
- What approval criteria do we have?
- When should a code change be reviewed?
- How should a code review description look like?
- ...
